

STATION AREA UTRECHT

The renewal of the Utrecht station area creates a considerable enlargement of the city centre on the west side. Through the restructuring of the Hoog Catharijne station and shopping centre, the arrival of the municipal offices and the renewal of the public space, important connections are being made between the areas on both sides of the railway. With the adoption of the Master Plan for the Jaarbeurs side in 2014, the basis for the renewal has been laid.
